### [Grief Healing: In Grief: Using Denial to Cope with Loss](#)

In the same way, denial allows us to sip on the feelings of grief without letting it overwhelm us completely. Denial becomes unhealthy only when it prevents someone from moving through the other stages of grief. At some point, a person will have to face the reality of their loss and process their emotions accordingly.

[How do people express denial when in grief? | Grief...](#)

Grief has five stages: denial, anger, bargaining, depression, and acceptance, first posited by Psychiatrist Elisabeth Kübler-Ross in 1969 in terms of death and dying and again in 2005 in terms of grief and loss. In the denial stage, people believe that their loved one has died, but their denial is symbolic in that they cannot believe that ...
