The current Definity PBX is working for everything, just can't receive VM. I like where you're head's at though. If I am understanding you! If you're in OH, I may have to get contact info. My work tends to get me in the face with a lot of PBX stuff. But as Skyking says adit 600 with 48xfxs and 2xT1 are on ebay for less than 100 bucks
