Austin Tappan Wright: *Islandia*. While not a great work of literature, this work should retain a special place in US literature as Wright creates an entirely new world which is on this planet and peopled by clearly recognisable humans. Other writers have, of course, tried something similar. Many science fiction writers have created worlds which ...

[Islandia book by Austin Tappan Wright](#)

Islandia by Austin Tappan Wright is a utopian novel originally written in the years around 1910, and first published in 1942 that is remarkable both because love of place is a central theme and because the author was the brother of John Kirtland Wright, a well-remembered humanistic geographer who was librarian and subsequently director of the American Geographical Society.
