One of the things that makes creating with Live so fluid is the ability to change the tempo and timing of any audio, in real-time, without stopping the music. We call this warping. Use warping to mix and match loops from a variety of tempos, fix timing errors in recorded performances, or radically reshape any audio into new sound design directions.

[Arbitrary Constraints | Making Music book by Ableton](#)

Creative musicians find inspiration in other music. While we seek to make music that is uniquely our own, every other piece of music we hear is automatically processed and becomes an unconscious part of our musical vocabulary. Taking too much is theft. Taking too little fails to acknowledge our influences.
