Just some additional stuff:

"Expression Web 3" is not a good title for this post. Some indication of what the post is about - a contact form - makes a lot more sense. Also, "They said I need a file in called GDform.php before I can use email." You can use email if you have an email account. I am assuming you meant to say: have a form emailed to ...

allelized, as we discuss in Section 3.2. The dotted line implies that we can sometimes safely convert a stateful expression into a pure one as discussed in Section 3.1. The hierarchy of stateful effects is simplified here and we'll refine it further in Section 3.1. Finally, the io effect represents what is more
