Step 1, Ask your friend to pick a number. He should keep this number secret from you. Tell him not to forget, since he'll have to remember it later. We'll go through an example where your friend picks the number 6. Even kids can do the math in this trick, as long as they can multiply and divide by 2. A young kid might need to whisper the number to another person, so she can remind him later.

Step 2, Have your friend double the number. Say "Now double the number you chose, but don't tell me

This process of turning numbers into image associations is derived from the Major System as stated above. So if you want to turn the number 39 into an mnemonic, you would take the M sound for the number 3 and the P sound for the number 9. You would then add a vowel and you get a Mop! The image for the number 39 is Mop.
