A mnemonic is a concise phrase in which each letter stands for a word. An example of a mnemonic is MONA (morphine, oxygen, nitroglycerin, and aspirin). The word mnemonic originates from the Greek term "memory aid." Mnemonics can be used as a valuable resource to assist nursing students in the studying process.

Nursing is all about applying what you know to effectively promote health, prevent illness, and compassionately care for the ill and dying. Although the NCLEX rarely offers up any knowledge-based questions, studying for your boards or nursing school exams invariably means a lot of memorization; after all, you need to learn the knowledge to apply it.
