The ongoing process of increased integration of national economies, culminating in the single European market of 1992, still leaves as virtually separate the national fiscal systems. In this book international economists Jacob Frenkel and Assaf Razin join forces with public finance economist Efraim-Sadka to provide a new treatment of international taxation, one that focuses on the interactions ...

[International Taxation in an Integrated World](#)

Individuals and companies operating internationally pay income abroad and receive income from abroad. Capital and, to some extent, highly skilled labor have become more sensitive to differences in effective tax rates and react to these differences. The implications of these changes for tax systems are enormous, and not fully understood.
