

The New Agilent 1290 Infinity II LC | 8ed67576c3956911311d8429c444a7e4

Right here, we have countless book the new agilent 1290 infinity ii lc and collections to check out. We additionally pay for variant types and along with type of the books to browse. The okay book, fiction, history, novel, scientific research, as capably as various other sorts of books are readily simple here.

As this the new agilent 1290 infinity ii lc, it ends occurring best one of the favored books the new agilent 1290 infinity ii lc collections that we have. This is why you remain in the best website to see the incredible books to have.
[The New Agilent 1290 Infinity](#)

The 1290 Infinity II LC System is an ultra-high performance LC that has market-leading sample capacity and is designed for the lowest dispersion for the most challenging ultra-HPLC experiments. The 1290 Infinity II LC system is designed to be both a HPLC and high-end UHPLC system in a single flow path, giving you robust and excellent performance no matter what application you are running while seamlessly integrating into your existing laboratory environment.

[1290 Infinity II Bio LC System, Bio Binary UHPLC | Agilent](#)

The 1290 Infinity II Bio High-Speed Pump is a binary UHPLC pump consisting of biocompatible material for use in biopharma and other applications utilizing high salt and extreme pH conditions. It uses high-pressure blending from up to two solvents at pressures up to 1300 bar and flow rates up to 5 mL/min. The 1290 Infinity II Bio High-Speed Pump has an exceptionally low delay volume, achieving high throughput and highest resolution for the most demanding applications, giving you highest ...

Agilent 1290 Infinity II UHPLC System with DAD. The Agilent 1290 Infinity II UHPLC System with DAD as part of the Infinity Lab LC series embodies the future of UHPLC—with the exceptional reliability and robustness you expect from Agilent, plus breakthrough technologies to maximize the efficiency of your business in three dimensions. Unmatched separation and detection performance deliver ...

The Agilent 1290 Infinity LC is designed to provide highest speed, resolution and sensitivity. A new power range allows you to deploy any particle type, any column dimensions, or any mobile and stationary phases. Innovative technology components offer the next level of performance for both UHPLC and HPLC applications.

Agilent has implemented various initiatives at the facility where the 1290 Infinity II LC System is manufactured in order to reduce the facility's energy and water consumption. These initiatives, which include rain water harvesting, equipment replacement, and an upgraded, on-site combined heat and power plant, have resulted in energy and water ...
