It will be Galbraith's "The New Industrial State" which will allow us to fully understand the "Post-Industrial State." The "New Industrial State" should receive a wide and new generation of readers. It is an important book to understand a previous era, and a specific relationship between citizens, workers, business, and the public sector, a type of symbiotic embeddedness between each group.

[The New Industrial State - Wikipedia](#)

With searing wit and incisive commentary, John Kenneth Galbraith redefined America's perception of itself in *The New Industrial State*, one of his landmark works. The United States is no longer a free-enterprise society, Galbraith argues, but a structured state controlled by the largest companies. Advertising is the means by which these companies manage demand and create consumer "need" where none previously existed.

However, in his 1967 classic *The New Industrial State* John Galbraith made the case for quite a different reality. The American economy, Galbraith held, was thoroughly planned--if in a somewhat more diffuse way than contemporaneous Soviet-style economies. Rather than some government bureau attempting to direct the whole, the function was spread ...
